- Frame : 50 mm
- ITTF W approved (wheelchair play)

COMPACT
TECHNOLOGY

DSI

Comfort of use

Fixed posts + net
Easily movable thanks to 4 twin wheels
Central locking handle
Reduced footprint
3-year guarantee against any defect

Performance

Excellent rebound: 22 mm thick tabletop with Skiltop covering
Perfectly level: 50 mm frame and Wide feet equipped with adjustable height blocks
Maximum stability: 4 twin wheels
Height and tension adjustable net

Safety

The highest level of safety on the market
European standard EN 14468-1
16-point DSI locking system

Performance

Excellent rebound

22 mm thick tabletop for a high and perfectly regular rebound
Surface Skiltop covering for optimum return of spin
White stripes and perfectly tailored side zones

Perfect levelness

50 mm frame
The higher the frame (from 50 to 70mm), the better the flatness
All our tables are designed with frames made of an alloy of steel, zinc and aluminium which boasts supreme rust resistance
Wide feet equipped with adjustable height blocks

Maximum stability

The stability is improved by the 4 double wheels equipped with brakes (4)

Adjustable net (height and tension)

The height of the net can be adjusted without affecting tension

Safety

The safest table on the market

The patented COMPACT TECHNOLOGY system undoubtedly represents the best offer on the market in terms of storage, safety and ease of use

The large wheel base allows safe mobility even on a sloping floor

DSI system with 16 locking points

Thanks to its unique system, if a child opens the table and releases the handle, the panel is blocked at 45°, thus avoiding any risk of accident. Finally, if the panel is not fully locked in the playing position, a second locking level stops the panel from flipping over

European safety standard EN 14468-1

Cornilleau has developed, designed and produced competition level tables for more than 25 years

All our tables comply with European safety standard EN 14468 -1. To ensure the highest safety levels, Cornilleau product compliance goes much higher than this standard

Ease of use

Fixed posts and net

ITTf posts fixed permanently to the table will save you time on each installation. The height of the net can be adjusted without affecting tension

Excellent mobility thanks to 4 double wheels

Cornilleau tables with "Compact system" are really easy to move, even for young people (always under the supervision of an adult)

Central unlocking handle

Thanks to a central unlocking handle, the table can be opened and closed extremely easily.

Minimum storage space

The leg assembly has been designed to stack tables during storage, providing minimum storage space. Optimal storage size: 1 table = 65 cm + 45 cm for each adding table

3 years guarantee against any manufacturing defect

Boosted by 40 years' experience, Cornilleau has selected high-quality materials and boasts a 3-year guarantee on its tables

Single player option

A tabletop can be rotated to the vertical to train alone.
